COOL SWEDEN WORKSHOPS 2027

Present the future of Thermal Management

May 11 2027 – Scandic Continental, Stockholm C.

INVITATION TO WORKSHOP PARTNERS

Cool Sweden Workshops 2027 is the event for practicing engineers working with Thermal Management and cooling of electronics, and for those faced with this problem in the development of new products.

The electronics industry is developing rapidly, and it drives towards the needs of efficient electronics cooling to achieve high reliablity. This brings an increased power density which also increases the demands on electronics cooling.

To solve the cooling problem is a matter of the industry´s future competitiveness and therefore we arrange Cool Sweden Workshops 2026. This is a meeting place for electronics cooling where you as an exhibitor and presenter of workshops play an important role and have great opportunities to interact with customers and peers in the industry.

Welcome to take a prominent place at Cool Sweden Workshops 2027!

COOL SWEDEN
WORKSHOPS

Present your workshop in small focus groups

Cool Sweden 2027 is a conference with a clearly defined and rolling program based on focus groups. The mix of Keynotes and workshops with technical content on Thermal Management offer a day full of dynamic content and plenty of oppor-tunities for the participants to interact and ask questions to you and your companies' representatives.

As an Workshop Partner you will hold your workshop within Thermal Management in a private meeting room, especially adapted to your needs. The participants are divided into several groups, and you will present your workshop several times. Thus all participants will take part of your workshop during the day. Time is also dedicated in connection with lunch and coffee breaks, giving you many opportunities to discuss Thermal Management with old and new contacts.

Welcome to register as a Workshop Partner!

Please note:
(1) There is a limited number of places for presentations and workshops. It is therefor "first come, first serve" that applies.
(2) All workshops are quality assured by the Cool Sweden Initiative.

Exhibitor options:

WORKSHOP PARTNER: PRICE 15 000 SEK
- **Presentation of workshop for service or product within Thermal Management**
